

CALL FOR PAPERS

Special Session on Advanced Motion Control for Mechatronic Systems

to be held in the frame of
IECON 2013 - The 39th Annual Conference of the IEEE Industrial Electronics Society
10th - 13th of November 2013, Austria Center, Vienna, Austria

TOPIC OF THE SPECIAL SESSION

Varieties of mechatronic applications require advanced motion control techniques, realized by integrating smart control strategies, high precision sensing, and innovative actuators. The scope of the session is to bring together prominent researchers in the field of motion control, and to present their results to the large audience of IECON2013.

Topics of interest include, but are not limited to:

- High precision actuators and sensors in motion control systems,
- High precision positioning techniques in industrial mechatronic systems,
- Nanoscale servo systems in industrial applications,
- Mass storage control systems,
- Automotive motion control including electric and hybrid vehicles
- Innovative control strategies in advanced motion control.

SPECIAL SESSION ORGANISATION

Hiroshi Fujimoto
fujimoto@k.u-tokyo.ac.jp

Makoto Iwasaki
iwasaki@nitech.ac.jp

Roberto Oboe
roberto.oboe@unipd.it

Toshiaki Tsuji
tsuji@ees.saitama-u.ac.jp

The organizers look forward to welcoming you to Vienna, Austria from 10th to 13th November 2013.

Important Dates

Regular Paper submission:	April 01, 2013
Notification of acceptance:	June 15, 2013
Final submission:	August 01, 2013

SUBMISSION OF PAPERS

The working language of the conference is English. Submit the full paper as PDF following the IEEE layout requirements by using the templates given at the conference web page. Accepted and presented papers will be published in an IEEE Proceedings volume and will be sent to IEEE Xplore. In addition, selected authors are encouraged to submit their papers for publication in the IEEE Transactions on Industrial Electronics or in the IEEE Transactions on Industrial Informatics.

THE CONFERENCE

IECON 2013 is the 39th Annual Conference of the IEEE Industrial Electronics Society, focusing on industrial and manufacturing theory and applications of electronics, controls, communications, instrumentation and computational intelligence. The objectives of the conference are to provide high quality research and professional interactions for the advancement of science, technology, and fellowship.

Papers with new research results are encouraged for submission. IECON 2013

will be held concurrently with the 7th IEEE International Conference on E-Learning in Industrial Electronics (ICE-LIE 2013). Participation in any of these events just requires a single conference registration fee. The world's industry, research, and academia are cordially invited to participate in the wealth of presentations, tutorials, special sessions and social activities, and furthermore, enjoy beautiful Vienna.
