

CALL FOR PAPERS

Special Session on Current Status of Intelligent Spaces – Conversion of Robotics, Mechatronics, Control and Interfaces

to be held in the frame of
IECON 2013 - The 39th Annual Conference of the IEEE Industrial Electronics Society
10th -13th of November 2013, Austria Center, Vienna, Austria

TOPIC OF THE SPECIAL SESSION

We have been working for Intelligent Spaces (iSpaces) which have functions of understanding environments by networking sensors and serving people by using Mechatronics/Robotics devices. In iSpaces Robotics play important roles from a view point of human-machine interaction. And there have been a lot of human robot interaction technologies such as gesture recognition, voice recognition, human face recognition, and etc. Intelligent Spaces are good targets to integrate many kinds of technologies. We will discuss current status of Intelligent Spaces including Cognitive Science, Cognitive Info-Communication, Personal Mobility and Etho-Robotics as new applications.

Topics of interest include, but are not limited to:

- Intelligent Spaces (iSpaces)
- Intelligent buildings
- Robotics and Mechatronics based on Human Interfaces

SPECIAL SESSION ORGANISATION

Hideki HASHIMOTO
hashimoto@elect.chuo-u.ac.jp

Peter KORONDI
korondi@mogi.bme.hu

Géza HUSI
husigeza@eng.unideb.hu

The organizers look forward to welcoming you to Vienna, Austria from 10th to 13th November 2013.

Important Dates

Regular Paper submission:	April 01, 2013
Notification of acceptance:	June 15, 2013
Final submission:	August 01, 2013

- Applications of Cognitive Sciences based on Intelligent Spaces
- Cognitive Info-Communication, Personal Mobility, Etho-Robotics

SUBMISSION OF PAPERS

The working language of the conference is English. Submit the full paper as PDF following the IEEE layout requirements by using the templates given at the conference web page. Accepted and presented papers will be published in an IEEE Proceedings volume and will be sent to IEEE Xplore. In addition, selected authors are encouraged to submit their papers for publication in the IEEE Transactions on Industrial Electronics or in the IEEE Transactions on Industrial Informatics.

THE CONFERENCE

IECON 2013 is the 39th Annual Conference of the IEEE Industrial Electronics Society, focusing on industrial and manufacturing theory and applications of electronics, controls, communications, instrumentation and computational intelligence. The objectives of the conference are to provide high quality research and professional interactions for the advancement of science, technology, and fellowship.

Papers with new research results are encouraged for submission. IECON 2013

will be held concurrently with the 7th IEEE International Conference on E-Learning in Industrial Electronics (ICE-LIE 2013). Participation in any of these events just requires a single conference registration fee. The world's industry, research, and academia are cordially invited to participate in the wealth of presentations, tutorials, special sessions and social activities, and furthermore, enjoy beautiful Vienna.
